	8. The opinion of the Game & Fish Preservation Association has not yet been obtained. It is not known if their receipt is to be awaited. The preponderance of opinion is in favor of the extension of the period of protection, though opinions vary as to the length of the period. The Conservator of Forests recommends absolute protection for pea fowl and bird of bright Coloured plumage and his recommendation as regards the latter species is supported by the North Mysore Planters Association. But under Sec.ns 3 & 4 of the Regulation this would be illegal. It is also sought to bring Bison under certain protection This is the opinion of the Dep.y Conservator of Police & the North Mysore P. 7 The preponderance of opinion is in favour of further relaxation of protection to autelope, peafowl and birds of bright colored plumage. This may perhaps be sanctioned for a period of 3 years more. In the case birds of bright colored plumage it may even be desirable to extend the period to 5 years. Absolute prohibition is not allowable under the law, as pointed out in the Spectator, Supra.

SIR,

With reference to your letter No. J.2514/Legis. dated the 4th March 1911, calling for a report as to whether the period of protection afforded to Antelopes, Peafowl and birds of bright colored plumage should further be extended I have the honor to state that the District Magistrates, the Conservator of Forests in Mysore and the Honorary Secretaries of the Game and Fish Preservation Association, who were consulted in the matter have offered the following opinion:-

(1) The District Magistrates of Kadur Hassan, Chitaldrug and Mysore opine that the period of protection to Antelopes and peafowl and to birds of bright colored plumage should be further extended by three years; those of Tumkur and Shimoga recommend 2 years extension. The District Magistrate of Bangalore proposes protection for 5 years more.

(2) The District Magistrate of Kolar expresses that sufficient protection has been afforded to peafowls and birds of bright colored plumage and no further extension is needed, but that it is advisable to restrict the shooting or

of Antelopes to some extent and suggests that no license-holder should be allowed to shoot more than 5 bucks with horns of not less than 14 inches in length.

(3) The Honorary Secretary North Mysore Planters Association is of opinion that Antelopes and peafowls should be protected for a further period of 3 years but that permission may be given to license-holders to shoot anywhere in the Province not more than 3 antelopes per annum. He recommends absolute protection to the birds of bright colored plumage.

(4) The Conservator of Forests states that a further period of 3 years should be afforded for the protection of Antelopes and absolute protection for ever in the case of peafowls and birds of bright colored plumage.

2. In my opinion a further protection for a period of 3 years may be given to Antelopes, peafowls and birds of bright colored plumage.

3 The Honorary Secretary North Mysore Planters Association represents that bison may also be protected absolutely for a period of 5 years as owing to the ravages, disease and remorseless slaying by hunters, the animals are gradually disappearing. I quite agree with the Secretary in the suggestion made by him to give protection to bisons as they are fast disappearing. I would therefore suggest that bison may also be included in the list of animals and birds to be brought under protection.

4. The opinion of the President of the Game and Fish Preservation Association. Saklespur has not yet been received and will be duly forwarded on receipt.

I have the honor to be
